Experience

Coding Blocks

Product Engineer and Instructor

August 2024 - February 2025

- Mentored students at university and Coding Blocks' main center on software development best practices.
- Independently built backend for Student Leaderboard Portal using **Node.js**, **Express**, **Prisma**, and **PostgreSQL**, including data scraping from **LeetCode** and **CodeForces** via **GraphQL** APIs from Excel files
- Collaborated on Interview Platform development team, specializing in React frontend implementation.
- Helped students develop industry-level projects while teaching programming concepts to students.
- Served dual roles as Product Engineer and Instructor, utilizing **React**, **Node.js**, **Express**, **Prisma**, and **PostgreSQL**.

AlmaBetter

Web Development Trainee

Program Certificate

September 2023 - August 2024

Bangalore (remote)

Skills : MERN, SEO, DSA, Monitoring, Team Work, Business Communication

- Gained hands-on experience in front-end with backend programming languages and tools such as **Node.js** and using databases such as **MongoDB**.
- Created and optimized web applications, utilizing front-end libraries like **React**, **Tailwind CSS** and backend frameworks like **Express**.
- Learned about best practices. including user authentication and data encryption to develop and deploy high quality and secure web applications.

RaiBhilo Consultancy LLP

Frontend Developer

Internship Completion Certificate

July 2022 - August 2022

- Developed responsive UI for blogs page using **React.js**, implemented dynamic data integration and seamless frontend connectivity with **Redux**.
- Designed and created user-friendly login and signup pages using **React.js**, enhancing site security and user experience.
- Implemented Google authentication using **Firebase** and **JavaScript**, streamlining user access and improving overall site functionality.

Academic Projects

Rotten Tomatoes Web-App

Live Link

- Engineered a full-stack Rotten Tomatoes Clone utilizing **React.js**, **Redux Toolkit**, **Tailwind CSS**, and **Firebase** authentication.
- Implemented secure user access and account management features using **Firebase** authentication.
- Developed core functionalities including movie/show browsing, search capabilities, and personalized watchlist management.

Myntra Store App

Live Link

- Built Myntra App with **React.js** and **Redux Toolkit**, featuring dynamic filtering, cart functionality, and seamless UX.
- Implemented responsive design using **Tailwind CSS** for impressive, deviceoptimized UI.
- Integrated **Firebase** for data storage and Google authentication, enabling personalized shopping features.

Blog App (MERN)

Live Link

- A MERN Stack blog app with **JWT** token authentication, enabling users to like posts, comment, and search.
- Utilized **React** for the frontend and **Redux Toolkit** for efficient state management. Website is responsive for all the mobile devices, Ipad, etc.
- Technologies used -> **React.js**, **Node.js**, **Express.js**, **MongoDB**, **Tailwind CSS**.

Summary

Skilled full-stack developer with expertise in React.js, Node.js, Express.js, PostgreSQL, Prisma, MongoDB, Firebase, and Tailwind CSS. Experienced in both independent backend development and collaborative frontend projects. Familiar with React Native, Next.js, and TypeScript. Seeking to apply technical proficiency to innovative projects at a reputable organization.
